# What is ConstructionSkills Site Safety Plus?

The Site Management Safety Training Scheme course was launched over 30 years ago. Since then, the industry has been through considerable change.

In response to this we've developed health and safety training for everyone, from those entering the industry to those responsible for managing the work.

The ConstructionSkills' Site Safety Plus Scheme is a comprehensive health and safety training programme designed to provide the building, civil engineering and allied industries with a range of courses for individuals seeking to develop their skill set in this area.

They are designed to give everyone from apprentice to senior manager the skill set they need to progress through the industry. From a one-day Health and Safety Awareness course to the five-day Site Management Safety Training Scheme, our courses will ensure everyone benefits from the best possible training.

Our programmes are regularly revised to ensure the content is in line with new legislation and best practice guidelines.

Keep up-to-date with all the latest health and safety developments and be part of a safer and more efficient working environment - something that benefits everyone on site.

## Why choose ConstructionSkills' Site Safety Plus?

You will:

- benefit from the highest quality courses
- receive industry-recognised qualifications to assist your career progression
- know how to prepare method statements, risk assessments and all requirements of the Health and Safety at Work Act 1974
- be better equipped to identify potential hazards on site and make sure your work is safer and more efficient

## In addition

- Courses can be adapted to ensure relevance to candidates.
- You'll access lifelong learning opportunities and advance along the career path to greater health and safety knowledge.
- All courses are supported by specialist publications which are regularly updated.

## Courses include:

- Achieving Behavioural Change (one day)
- Health and Safety Awareness (one day)
- Site Supervisors' Safety Training Scheme (two days)
- Site Safety for Shopfitters and Interior Contractors (three days)
- Site Management Safety Training Scheme (five days)
- Site Management Safety Training Scheme refresher course (two days)
- Plant Management Safety Training Scheme (five days)
- Plant Manager Safety Training Scheme refresher course (two days)
